

FLHealthCHARTS.com Data Update Schedule

Florida Department of Health Data		
Source	Description	Data Update Timeframe
Florida Department of Health, Division of Childrens Medical Services	Medical foster care children	January - February for prior year data
Florida Department of Health, School Health Services Program	Ratio of school health nurses to students	January - February for prior year data
Florida Department of Health, Bureau of Environmental Health	Environmental inspections	March-April for prior year data
Florida Department of Health, Bureau of Immunization	Immunization status of 2 year olds, Kindergarten and 7th grade students	March-May for prior year data
Florida Department of Health, Division of Disease Control and Health Protection, Tuberculosis Section	Tuberculosis cases (incidence)	March-April for prior year count data; rates are final when population is final (approx. June)
Florida Department of Health, WIC & Nutrition Services	WIC potentially eligible population and population served	March-April for prior year count data; rates are final when population is final (approx. June)
Florida Department of Health, Bureau of STD Prevention & Control	Incidence data for sexually transmitted diseases	May-July for prior year data
Florida Department of Health, Bureau of Vital Statistics	Births, deaths, fetal deaths, marriages and divorces	May-July for the prior year's annual report and health indicators. In the query systems, provisional data for counts is updated for the current year each weekend.
Florida Department of Health, HIV/AIDS Section	HIV and AIDS cases (incidence)	July-August for the prior year
Florida Department of Health, Florida Birth Defects Registry	Five year counts and rates of specific birth defects as listed in the Birth Defects Profile Report	July-September (The latest data is 2 calendar years older than the present year. This is because cases must be verified through active surveillance and record reviews.)
Florida Department of Health, Florida Youth Survey	Youth risk behaviors including alcohol use, tobacco use and more. Data comes from four surveys: the Youth Risk Behavior Survey (DOE), Middle School Health Survey (DOE), FL Youth Substance Abuse Survey (DCF), and FL Youth Tobacco Survey (DOH). Data are collected at the state level in odd years. Some data is available at the county level in even years.	October - December. Youth survey data comes from four different surveys. Some of the surveys are conducted in even years (county level) and others in odd years (state level). For this reason, data may lag two years depending upon the indicator you are viewing.

FLHealthCHARTS.com Data Update Schedule

Source	Description	Data Update Timeframe
Florida Department of Health, Behavioral Risk Factor Surveillance Survey	Behaviors such as physical activity, nutrition, smoking, alcohol use and more.	October - December for either the state or county level data of the prior year. State level data is collected every year. County level data are collected every three years by surveying enough people so that the survey sample is valid at the county level. The latest county level data is for 2013.
Florida Department of Health, Bureau of Epidemiology	Reportable and infectious diseases	October - December for the prior year data. In the Reportable Disease Query System, provisional data is provided for the current year with weekly updates on the weekend.
Florida Department of Health, Public Health Dental Program	Population receiving optimally fluoridated water	October - December for the prior year data after collaboration with DEP on water systems, fluoridation levels, and populations served.
Florida Department of Health, Division of Medical Quality Assurance	Counts of licensed health and mental health care providers	October - December for prior year data.
Data from other agencies		
Agency for Health Care Administration (AHCA)	Hospital beds	January - February for prior year data
US Census Bureau, American Communities Survey	Socio-economic status such as percent of population below poverty, median household income, percent of population who speak English less than very well, percent of the population living with vision or hearing disabilities and more.	From January - July, data is updated for approximately 100 health related indicators using the 5-year estimates from the American Communities Survey. Data are for the 5-year period ending with the prior year.
Agency for Health Care Administration (AHCA), Certificate of Need Office	Neonatal Intensive Care Unit (NICU) beds	May-July for prior year data
University of Miami (FL) Medical School, Florida Cancer Data System	Cancer cases (incidence)	April - May for data that is 2 years prior to the current year. (The latest available data is two calendar years older than the present year)
Florida Office of Economic and Demographic Research (EDR)	Florida population	May-July. Data for the current year and five years forward are updated based on the latest estimates provided by EDR.
Department of Children and Families	Foster care	May-July for prior year data
Florida Department of Law Enforcement	Crime statistics	June-August for prior year data
