Navigation notes for CHARTS:

Report Options:

Top Row—Indicator

- Change Indicator to select report from list of related indicators

Measure Type to select Single or Three-year Rolling Average

Age Range to select Age Grouping (Type in beginning and end years)

Select County to change County

Change Grouping to change Race or Ethnicity

Change Counts and Rates to select Counts, Rates, or Both

Florida Map:

Change map grouping to change Race or Ethnicity

Change Year to last year of 3-year Rolling Average or selected Single Year

Florida Vital Statistics Annual and Provisional Reports: http://www.flpublichealth.com/VSBOOK/VSBOOK.aspx

County level report pages in parentheses.

Population (page 7):   http://www.flpublichealth.com/VSBOOK/pdf/2015/Population.pdf

Births (pages 7-40): http://www.flpublichealth.com/VSBOOK/pdf/2015/Births.pdf

Fetal and Infant Deaths (pages 5-13): http://www.flpublichealth.com/VSBOOK/pdf/2015/Fetal.pdf

Use the Healthy Start Reporting System for data on Prenatal and Infant Screening (http://www.floridacharts.com/HS/Default.aspx).

See following pages for links to indicators used in Service Delivery Plan Updates available via http://www.FlHealthCharts.com.

Infant/Fetal Death Analysis (Florida & County)

Report Title	Year	Change Grouping	Report Link/Notes
Infant Death Rate	Year selected = specified year or last year of rolling rate	Measure Type: Single vs 3-Year Rolling Rate Disparities: Change grouping to Race (White/Black)	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0053
Neonatal Infant Deaths		See above	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0054
Postneonatal Infant Deaths		See above	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0055
Fetal Deaths		See above	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0052
SUIDS Deaths		Change Measure Type to 3-Year for Map	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0711
SIDS Deaths		Insufficient number of SIDS deaths for a quartile map	http://www.flhealthcharts.com/charts/DataViewer/InfantDeathViewer/InfantDeathViewer.aspx?indNumber=0463

Prior to Birth (Florida & County)

Report Title	Age Range	Change Grouping	Report Link/Notes
Births to Obese Mothers at time Pregnancy Occurred			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0606
Births to Overweight Mothers at time Pregnancy Occurred			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0607
Births to Underweight Mothers at time Pregnancy Occurred			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0605
Births with Inter-Pregnancy Interval < 18 Months			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0610
Resident Live Births to Mothers Who Smoked During Pregnancy			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0343

6/6/2017

Births to Females by Age Grouping (Florida & County)

Report Title	Age Range	Change Grouping	Report Link/Notes
Births by Mothers Age	Make selections	Select different race/ethnic options to see possible differences	http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0001 When Births by Mothers Age is selected as the indicator and all ages are selected, the rate displayed is the crude birth rate total births divided by total population per 1,000 population). When Births by Mothers Age is selected as the indicator and ages are selected, the rate displayed is the age-specific birth rate (i.e., births to mothers in a specific age group divided by females in the same age group expressed per 1,000 population).
Births by Mothers Age 10-14	Default birth age set to 10-14		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0001&agefrom=10&ageto=14
Births by Mothers Age 15-19	Default birth age set to 15-19		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=1&ageFrom=15&ageTo=19
Repeat Births to Mothers Ages 15-19	Default birth age set to 15-19		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0015 Numerator=total teenagers ages 15-19 having at least one previous birth Denominator=total births to teens ages 15-19
Repeat Births to Mothers Ages 15-17	Default birth age set to 15-17		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0507
Repeat Births to Mothers Ages 18-19	Default birth age set to 18-19		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0508
Births to Mothers Age 15-44	Default birth age set to 15 to 44		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0001&agefrom=15&ageto=44

Socio-Economic Indicators:

Use **County Health Profile** to view median age and household income and percentages on the following socio-economic indicators
http://www.flhealthcharts.com/ChartsReports/rdPage.aspx?rdReport=ChartsProfiles.CountyHealthProfile

- Population below poverty level; Families below poverty level; Population under 18 below poverty level, Civilian labor force unemployed; Population 25 and older with No High School Diploma; Population 5+ that speaks English less than very well.

Natality Analysis (Florida & County)			
Report Title	Age Range	Change Grouping	Report Link/Notes
Births by Mothers Age	Default includes mothers at any age (numerator) divided by total population at any age	Select Ages to create age ranges applied to numerator and denominator	http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0001
First Trimester Entry into Prenatal Care	Select different age ranges to see if "Entry" varies by age	Select different race/ethnic options to see possible differences	http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0018
3rd or No Entry into Prenatal Care	4 Panel Viewer: Asterisks denote if the county differs statistically significantly from the state in data charts at bottom	Does county have an erratic pattern on trends due to small counts? If yes, try using "3-Year Rolling Rates" (Change Measure Type)	http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0017
Births with Adequate Prenatal Care (Kotelchuck index)		Are the gaps between groups increasing or decreasing?	http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0615
Prenatal and Infant Screening Rates			**Use Healthy Start Reporting System** at http://www.floridacharts.com/HS/login.aspx?ReturnUrl=%2fHS%2fDefault.aspx
Low Birth Weight Under 2500 Grams			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0021
Very Low Birth Weight Under 1500 Grams			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0022
Preterm Births, <37 Weeks Gestation (%)			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0473
Births 37-38 Weeks Gestation with an Elective Delivery			http://www.flhealthcharts.com/charts/OtherIndicators/NonVitalIndNoGrpDataViewer.aspx?cid=9763
Resident Live Births to Mothers Who Smoked During Pregnancy			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0343

Birth Family Status, (Florida & County)

Report Title	Age Range	Change Grouping	Report Link/Notes
Percent of Births to Unwed Mothers			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0030
Mothers who initiate breastfeeding			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0637
Percent with Father Acknowledged on Birth Certificate			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0599
Births to Mothers >18 Without High School Education	Default age range = 19 to 999		http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0600&ageFrom=19
Births Covered by Medicaid			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0595
Births Covered by Emergency Medicaid			http://www.flhealthcharts.com/charts/OtherIndicators/NonVitalIndNoGrpDataViewer.aspx?cid=0593
Births to Mothers born in Other Countries			http://www.flhealthcharts.com/charts/DataViewer/BirthViewer/BirthViewer.aspx?cid=0601
County Birth Data Comparison (3-Year Averages)		Select up to 4 counties for comparison to state rates of 3-Year Rate or Percent	http://www.flhealthcharts.com/ChartsReports/rdPage.aspx?rdReport=ChartsProfiles.CountyBirthDataComparison
Pregnancy and Young Child Profile (Single Year)		County quartile rank versus state rank/percent (if available data) for each indicator	http://www.flhealthcharts.com/ChartsReports/rdPage.aspx?rdReport=ChartsProfiles.PregnancyandYoungChild
