Resident live births to mothers who smoked during pregnancy	Florida Department of Health, Bureau of Vital Statistics
Births to mothers who are underweight (BMI less than 18.5)	Florida Department of Health, Bureau of Vital Statistics
Births to mothers who are obese (BMI \geq 30) at time pregnancy occurred	Florida Department of Health, Bureau of Vital Statistics
Births to mothers who are overweight (BMI 25.0-29.9) at time pregnancy occurred	Florida Department of Health, Bureau of Vital Statistics
Mothers who initiate breastfeeding	Florida Department of Health, Bureau of Vital Statistics
Births with 1st trimester prenatal care	Florida Department of Health, Bureau of Vital Statistics
Births with no prenatal care	Florida Department of Health, Bureau of Vital Statistics
Fetal deaths	Florida Department of Health, Bureau of Vital Statistics
Infant deaths (0-364 days)	Florida Department of Health, Bureau of Vital Statistics
Sudden Unexpected Infant Deaths (SUID)	Florida Department of Health, Bureau of Vital Statistics
Maternal deaths	Florida Department of Health, Bureau of Vital Statistics
Births with inter-pregnancy interval < 18 months	Florida Department of Health, Bureau of Vital Statistics
Very low birthweight infants born in subspecialty perinatal centers	Florida Department of Health, Bureau of Vital Statistics

Births < 37 weeks of gestation	Florida Department of Health, Bureau of Vital Statistics
Births < 1500 grams (very low birth weight)	Florida Department of Health, Bureau of Vital Statistics
Births < 2500 grams (low birth weight)	Florida Department of Health, Bureau of Vital Statistics
Injuries and Injury-related Deaths	
Age-adjusted unintentional drowning death rate	Florida Department of Health, Bureau of Vital Statistics
Hospitalizations for non-fatal traumatic brain injuries	Florida Agency for Health Care Administration
Age-adjusted Traumatic brain injury death rate	Florida Department of Health, Bureau of Vital Statistics
Hospitalizations for non-fatal firearm injuries	Florida Agency for Health Care Administration
Age-adjusted firearms-related death rate	Florida Department of Health, Bureau of Vital Statistics
Hospitalizations for non-fatal motor vehicle related injuries	Florida Agency for Health Care Administration
Hospitalizations for non-fatal unintentional fire injuries	Florida Agency for Health Care Administration
Hospitalizations for non-fatal unintentional falls	Florida Agency for Health Care Administration
Age-adjusted unintentional fall death rate	Florida Department of Health, Bureau of Vital Statistics
Age-adjusted homicide death rate	Florida Department of Health, Bureau of Vital Statistics
Age-adjusted suicide death rate	Florida Department of Health, Bureau of Vital Statistics
Age-adjusted motor vehicle crash death rate	Florida Department of Health, Bureau of Vital Statistics
Leading Causes of Death	
Coronary Heart Disease	
Adults who have ever been told they had coronary heart disease, heart attack, or stroke2	Florida Department of Health, Behavioral Risk Factor Surveillance System
Age-adjusted hospitalization rate	Florida Agency for Health Care Administration
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Stroke	
Adults who have ever been told they had a stroke	Florida Department of Health, Behavioral Risk Factor Surveillance System
Age-adjusted hospitalization rate	Florida Agency for Health Care Administration
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Congestive Heart Failure	
Age-adjusted hospitalization rate	Florida Agency for Health Care Administration
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Cancer	
Cancer cases diagnosed at advanced stage	University of Miami, Florida Cancer Data System
Age-adjusted cancer death rate	Florida Department of Health, Bureau of Vital Statistics
Lung Cancer	
Age-adjusted incidence rate	University of Miami, Florida Cancer Data System
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Colorectal Cancer	
Adults 50 years of age and older who have ever had a sigmoidoscopy or colonoscopy2	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults 50 years of age and older who received a stool blood test in the past year	Florida Department of Health, Behavioral Risk Factor Surveillance System
Age-adjusted incidence rate	University of Miami, Florida Cancer Data System

Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Breast Cancer	
Women aged 40 to 74 years who received a mammogram in the past year	
Age-adjusted incidence rate	University of Miami, Florida Cancer Data System
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Prostate Cancer	
Age-adjusted incidence rate	University of Miami, Florida Cancer Data System
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Cervical Cancer	
Women 18 years of age and older who received a Pap test in the past year	Florida Department of Health, Behavioral Risk Factor Surveillance System
Age-adjusted incidence rate	
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
Diabetes	
Adults who have ever been told they had diabetes ²	Florida Department of Health, Behavioral Risk Factor Surveillance System
Emergency room visits due to diabetes	Florida Agency for Health Care Administration
Age-adjusted hospitalization rate	Florida Agency for Health Care Administration
Age-adjusted death rate	Florida Department of Health, Bureau of Vital Statistics
HIV/AIDS	
HIV Infection Cases	
Reported AIDS Cases	Florida Department of Health, Bureau of HIV/AIDS
Age-adjusted HIV/AIDS death rate	Florida Department of Health, Bureau of Vital Statistics
Modifiable Behaviors Leading to Premature Deaths	
Adults who are current smokers	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who are obese	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who are overweight	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who are inactive or insufficiently active	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who consumed five or more servings of fruits or vegetables per day	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who had their cholesterol checked in the past two years	Florida Department of Health, Behavioral Risk Factor Surveillance System
Adults who meet aerobic recommendations	Florida Department of Health, Behavioral Risk Factor Surveillance System
