

## Florida Access and Functional Needs Profile Data Sources, May 2018

Indicator	Source
<b>Demographic Data</b>	
1. Resident Live Births (3-year)	Florida Department of Health, Bureau of Vital Statistics
2. Total Population	Florida Department of Health, Bureau of Community Health Assessment in collaboration with The Florida Legislature, Office of Economic and Demographic Research
3. Children under 18 in Foster Care	Florida Department of Children and Families Child Welfare Services, Unduplicated count of children in out-of-home care at any time during the calendar year.
4. Population 65-84 Years Old	Florida Department of Health, Bureau of Community Health Assessment in collaboration with The Florida Legislature, Office of Economic and Demographic Research
5. Population 85+ Years Old	Florida Department of Health, Bureau of Community Health Assessment in collaboration with The Florida Legislature, Office of Economic and Demographic Research
6. Individuals 65 Years and Older Living Alone	US Census Bureau, American Communities Survey, Table B09020, 5-year Estimates
<b>Socioeconomic Data</b>	
1. WIC Eligibles Served	Florida Department of Health, Bureau of Women, Infants and Children Program Services
2. WIC Eligibles	Florida Department of Health, Bureau of Women, Infants and Children Program Services
3. Census Population Below Poverty	US Census Bureau, Table S1701, 5-year Estimates
4. Population 5+ that Speak English Less Than "very well"	US Census Bureau, Table B06007, 5-year Estimates
5. Median Monthly Medicaid Enrollment	Florida Agency for Health Care Administration
6. Households Receiving Cash Public Assistance or Food Stamps	American Community Survey, 5-Year Estimates
7. Homeless Estimate	Council on Homelessness Report, Department of Children and Families
8. Census Population Uninsured (Under 65)	American Community Survey, Table S2701, 5-Year Estimates
<b>Vulnerability Data</b>	
1. Percent of Adults Limited in Activities because of Physical, Mental, or Emotional Problems	Florida Department of Health, Bureau of Epidemiology, Florida Behavioral Risk Factor Surveillance Survey (Data is available for percent of the population, not counts.)
2. Percent of Adults Who Use Special Equipment because of a Health Problem	Florida Department of Health, Bureau of Epidemiology, Florida Behavioral Risk Factor Surveillance Survey (Data is available for percent of the population, not counts.)
3. Civilian Non-Institutionalized Population with a Disability	American Community Survey, Table S1810, 5-Year Estimates
4. Developmentally Disabled Clients	Florida Agency for Persons with Disabilities
5. Brain and/or Spinal Cord Injured Clients	Florida Department of Health, Brain and Spinal Cord Injury Program. Data includes the unduplicated number of individuals considered to be most vulnerable during a disaster. The data provided is the number of active cases at a point in time and includes moderate-to-severe traumatic injuries reported to the BSCIP Central Registry with applicant, in-service and waitlist status. Cases that have been closed are not included.

## Florida Access and Functional Needs Profile Data Sources, May 2018

6. Seriously Mentally Ill Adults	Florida Department of Children and Families
7. Census Population 18-64 with Vision Difficulty	American Community Survey, Table S1810, 5-Year Estimates
8. Census Population 18-64 with Hearing Difficulty	American Community Survey, Table S1810, 5-Year Estimates
9. Medicare Beneficiaries Enrolled in Medical Essential Electric Utility Program	<a href="https://empowermap.hhs.gov/">https://empowermap.hhs.gov/</a> Data represents de-identified claims data for Medicare Fee-for-Service and Medicare Advantage (Parts A, B and C) beneficiaries that include Americans aged 65 and over and disabled Americans under age 65. The electricity-dependent number, by location, represents the total number of beneficiaries with claims from the prior month for: ventilator, BiPAP, internal feeding, IV infusion pump, suction pump, at-home dialysis, electric wheelchair, and electric bed equipment in the past 13 months; oxygen concentrator equipment in the past 36 months; and an implanted cardiac device (i.e. LVAD, RVAD, BIVAD, TAH) in the past 5 years. This may be an under representation as some claims may not be recorded due to a submission lag
10. Substance Abuse Program Enrollees - Adult	Florida Department of Children and Families
11. Census Population 18-64 with Independent Living Difficulty	American Community Survey, Table S1810, 5-Year Estimates
<b>Children Through Age 20</b>	
1. Seriously Emotionally Disturbed Children	Estimated using population data from Florida CHARTS and SAMHSA prevalence rates for children (9% of children ages 9-17).
2. Census Population Under 18 with Vision Difficulty	US Census Bureau, Table S1810, 5-Year Estimates
3. Census Population Under 18 with Hearing Difficulty	US Census Bureau, Table S1810, 5-Year Estimates
4. Medical Foster Care Children	Florida Department of Health, Division of Children's Medical Services
5. CMS Clients	Florida Department of Health, Division of Children's Medical Services
6. Substance Abuse Program Enrollees - Children	Florida Department of Children and Families
<b>Elderly Ages 65+</b>	
1. Census Population 65+ with Vision Difficulty	US Census Bureau, Table S1810, 5-Year Estimates
2. Census Population 65+ with Hearing Difficulty	US Census Bureau, Table S1810, 5-Year Estimates
3. Probable Alzheimer's Cases (65+)	Florida Dept. of Elder Affairs
